## 01 OBJECTIVE

Self-taught frontend developer of three years seeking a position where I can utilize my skills in web development technologies, including React, Tailwind, and Git, to collaborate with a team of developers and deliver exceptional client results. My background in building websites, along with my three years of customer service experience and working with peers, has honed my ability to understand client's needs and effectively communicate with my team. These skills and knowledge have prepared me to excel in a professional setting.

## 02 EMPLOYMENT HISTORY

Feb 2022 — Feb 2022

Richmond

### Freelance Frontend Developer at Ralston Studios

I expertly crafted the mobile design of the landing page utilizing only CSS grid, in accordance with the client's specific requirements. Through effective communication, I collaborated with the client to seamlessly incorporate additional desired features.
